MY PROFILE

Passionate and experienced Flutter and Backend developer with a strong background in full-stack development. , I specialize in creating robust and scalable mobile applications using The Flutter Framework . On the backend, I have extensive experience working with frameworks like Node.js, Python's FastApi, and NestJS, and Asp .net with C# building efficient server-side logic and RESTful APIs. My expertise extends to working with databases like Firebase, SQL, and NoSQL,I am a proactive learner, continuously staying updated with emerging technologies and industry best practices. With a collaborative mindset and a knack for problem-solving, I thrive in team environments. and learning is always a rule for me
